## Christophe Alter

Technical chair of the Broadband Forum;  
broadband networks standardisation  
manager at France Telecom Orange

---

**C**hristophe Alter is one of very few people influencing broadband development with a global perspective, addressing the network architecture

from end-to-end, including mobile backhaul, next generation access, IPv6 migration, home networks and remote management. He is an untiring advocate for more interoperability and convergence.

Alter is a member of the board of directors at the Broadband Forum and manages Orange's broadband networks standards strategy.
